

Wasted – Angus & Julia Stone

This is a very simple song. Nice for learning to sing simple chord changes and harmonies. Very powerful

Verse G Em

Chorus Am C

I don't know just what I'll do
Everytime you walk into the room
Oh my head is spinning around
And I can't see clearly right now

I'm wasted
I'm so wasted on you (x2)

I don't know if I'll survive
In this magical land behind your eyes
And there's all these funny little men
There all asking me to dance and sing

I'm wasted
I'm so wasted on you (x2)

Red and yellow, pink and green, purple and orange and blue
All of the colours I see my love everytime I see you

I'm wasted
I'm so wasted on you (x4)
